🐙 bmdVC013

Education 📖

Danang University of Education
Applied Mathematics

Danang, Vietnam
2015 - 2019

Work 💼

Green Global
AI Engineer Intern

Danang, Vietnam
2018 - 2019

Developed Machine Learning and Deep Learning models to apply it to Visual Recognition using Python and its toolkits.

Projects 🚩

Vehicle Detection: Write a software pipeline to detect vehicles in an image or a video *Python, Algorithm*

Traffic Sign Classifier: Building a Deep Learning model using Tensorflow to classify traffic signs *Python, Tensorflow*

Skills 🎯

- Python, HTML, CSS, JavaScript
- Git
- Algorithm and Data Structure
- MySQL, PostgreSQL
