Education 📖

Danang University of Education	**Danang, Vietnam**
Applied Mathematics	*2015 - 2019*

Work 💼

Green Global	**Danang, Vietnam**
AI Engineer Intern	*2018 - 2019*

Developed Machine Learning and Deep Learning models to apply them to Visual Recognition using Python and its toolkits.

Projects 🚩

Vehicle Detection: Write a software pipeline to detect vehicles in an image or a video	*Python, Algorithm*
Traffic Sign Classifier: Building a Deep Learning model using Tensorflow to classify traffic signs	*Python, Tensorflow*

Skills ◎

- Python, HTML, CSS, JavaScript
- Algorithm and Data Structure
- Git
- MySQL, PostgreSQl
